Technical Consultant - Dona

2019-20

Dona is a donations technology startup based in London

- Website design
 - Strategized and implemented regular updates to the client facing company website
 - Used Wordpress technology's, CSS and HTML to deliver a professional design
 - Created and customised website graphics
- Development team coordination
 - Designed regular UX updates for the development team to implement, based on user feedback
 - Created test cases to guide development
- Business strategy
 - Created a business process model flow sheet
 - Contributed to company sales approach

Open University

2017-19

Open Degree specialising in Maths, 2:1

- Studied remotely while working as a freelance maths tutor
- Developed an excellent standard of self motivation and time management
- Topics covered include: Bayesian statistics, Optimization algorithms, Complex analysis

Maths Tutor

2017-19

Worked on average 10 hours per week as a freelance maths tutor up to A2

- Students varied in age and ability, requiring me to be highly adaptable
- Took a methodical bottom up approach to learning, looking for missing knowledge from previous years of study
- Adjusting my approach to topics depending on the students reaction required agile thinking

Other Achievements

- A2: Mathematics A*, Further Mathematics A, Chemistry B, Physics C
- GCSE: 5 A*, 5 A
- UKMT Maths Challenge: 3 Gold certificates and a Pink Kangaroo certificate with best score in school

Since the start of lockdown I have been developing my coding skills with Python. I'm particularly interested in data collection and analysis, and have been using libraries such as Pickle, Pandas, Matplotlib and Beautiful Soup.
